Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to
cure deafness, and that is by constitutional remedies.
Deafness is caused by an inflamed condition of the
mucous lining of the Eustachian Tube. When this
tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed. Deafness is the result, and unless the inflammation can be
taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases
out of ten are caused by Catarrh, which is nothing
but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of
Deafness (caused by catarrh) that cannot be cured
by Hall's Catarrh Cure. Send for circulars free.
